People are multi-faceted and have wide-ranging preferences. That's why NOMOS Glashütte watches stand for diversity and open-mindedness. Currently, NOMOS Glashütte has a series of limited square watch models, launched to celebrate 175 years of Glashütte

watchmaking. These models are for those who do not follow the herd, but forge their own paths: wonderfully enamel-like, glossy dials in red, off white, black and blue; watches with corners and angles – a little edgy.
